## High Diploma Certificate in Industrial Facilities Major

In 2016, Chip Mong Insee Cement Corporation (CMIC) became the very first and only one company in Cambodia setting up and implementing a world-class Enterprise based Vocational education (EVE) training program. EVE aims to train local young high school graduates around CMIC's Touk Meas Plant to become **professional technicians** for the operations and maintenances in heavy industry such as cement plant.

Following the curriculum for Enterprise based Vocational Education (EVE) practiced in Switzerland and fulfilling Cambodia Vocational Training Standard of Cambodia by collaboration with National Polytechnic Institute of Cambodia (NPIC), EVE students spend 3 years- full-time training in CMIC's cement plant so that they can graduate with high diploma certificate in Industrial Facilities major by NPIC and Cement-Processes Technician certificate by CMIC.
